Summary

Final-year B. Tech CSE student (Cloud Computing) seeking an entry-level Network Engineer / Cloud Support role. Hands-on with Kubernetes network isolation and policies, Azure fundamentals, and Python scripting, with strong interest in routing, switching, and network security.

Skills / Projects

- **Networking:** TCP/IP, DNS, DHCP, subnetting, VLANs, routing & switching, firewalls.
- **Cloud & Containers:** Azure, Kubernetes (namespaces, RBAC, Network Policies).
- **AI & Productivity Tools:** Local AI – QWEN 3:8b, Claude Code, Wireshark, Packet Tracer, GitHub.
- **Programming & Scripting:** Python, MySQL, Web Development.

Multi-Tenant Kubernetes Cluster Security Using Namespace Isolation and Network Policies

- Researched and structured methodologies for securing multi-tenant cloud environments.
- Analysed the implementation of namespace isolation to prevent unauthorized cross-tenant access, demonstrating a strong understanding of network security and cloud infrastructure.

Bangalore House: Restaurant Website | HTML, CSS, JavaScript, Netlify

- Designed and developed a website for a local restaurant using HTML, CSS, and JavaScript.
- Purchased and configured a custom domain through GoDaddy and deployed the site live on Netlify.
- Made the site mobile-friendly.

Home Media Streaming Server (Movies & Music) | Self-hosted, Wi-Fi/LAN

- Built a self-hosted movie and music streaming server on a personal computer, accessible from any device on the home Wi-Fi network.
- Delivers smooth playback with no buffering delays across multiple devices.
- Organized the library by language and genre.
- Set up the host's local network access (IP and port configuration) so devices can connect from a browser.

Training / Courses

Azure Fundamentals AZ-900 - Microsoft

Cloud Infrastructure AI Foundations Associate - Oracle

MySQL – HCL Guvi

AWS Infrastructure – HCL Guvi (*in progress*)

Full Python – HCL Guvi

Cisco Networking Academy: Cisco Packet Tracer

Education

Alliance University — Bengaluru | B.Tech (CSE) 2022 – 2026
